SUBSCRIBED AND SWORN TO BEFORE ME THIS 18TH DAY OF JULY 19 87

DIVISION OF

OIL, GAS & MINING APPROVAL

NO. M/023/012

DIVISION OF OIL, GAS AND MINING
DEPARTMENT OF NATURAL RESOURCES
IN AND FOR THE STATE OF UTAH

IN THE MATTER OF TENTATIVE APPROVAL OF THE MIN-
ING AND RECLAMATION PLAN PERMIT APPLICATION SUB-
MITTED BY SOUTHWESTERN PORTLAND CEMENT COMPA-
NY, JUAB COUNTY, UTAH

THE STATE OF UTAH TO ALL OPERATORS, TAKERS OF
PRODUCTION, MINERAL AND ROYALTY OWNERS, AND
PARTICULARLY ALL PERSONS INTERESTED IN SECTION 11,
TOWNSHIP 14 SOUTH, RANGE 3 WEST, SLBM, JUAB COUN-
TY, UTAH.

Notice is hereby given that tentative approval was given by
the Division of Oil, Gas and Mining, on June 29, 1987, to South-
western Portland Cement Company to conduct surface mining
operations in Section 11, Township 14 South, Range 3 West,
SLBM, Juab County, Utah.

The name of the proposed mining operation is the Nielson
Sandstone Quarry and the person representing the company is
Mr. David O. Lower, Vice President and General Manager,
Southwestern Portland Cement Company, P.O. Box 21158, Salt
Lake City, Utah, 84124.

Southwestern Portland Cement Company has fulfilled obli-
gations under the Utah Mined Land Reclamation Act of 1975
(Section 40-8, UCA 1953 as amended) with specific reference to
Section 40-8-13 and will employ the following mining and recla-
mation techniques on approximately 32 acres of federally-

During Operations:

1) The projected mine life is 20 years. Open pit mining will
initiate in the southern portion on the property and proceed in a
north-northeasterly direction along the strike of the bed. Ap-
proximately one to two acres will be opened up each year.

2) Prior to each mining advance, topsoil will be stripped,
stockpiled, and protected from erosion.

3) Pit run material will be transported by truck to the Leam-
ington Cement Plant for processing.

Following Operations:

1) All equipment and extraneous debris will be removed
from the mine site.

2) The crushed rock base of the ancillary access/haul road
will be removed.

3) All disturbed areas, including roads, pads, and benches,
will be stabilized and graded to a rounded configuration with
slopes not exceeding 2(H): 1(V).

4) Upon reclamation, the stockpiled topsoil will be spread
over all disturbed areas. Additional soil material will be ob-
tained from several alluvial deposits located on or near the
mine site area.

5) Standard agronomic practices will be used to prepare the
seedbed for drill and/or broadcast seeding. Disturbed areas
will be reclaimed with native vegetative species.

Any person or agency aggrieved by this tentative decision
is hereby requested to submit written protest within thirty (30)
days of the date of publication to the Division of Oil, Gas and
Mining, 355 W. North Temple, 3 Triad Center, Suite 350, Salt
Lake City, Utah, 84180-1203, setting forth factual reasons for his
or her complaint, and thereafter, at a time and place to be
established, appear before the Board of Oil, Gas and Mining to
show cause, if any, why this mine plan should not be approved.

DATED this 7th day of July 1987.
